Another one! Call you Monday. Maybe she reached out to you also?

Thanks

**Subject:** Ringwood Superfund Site

Good Afternoon Pat,

My name is Abigail Gormley and I am a graduate student at Stockton University. I am currently taking a class in environmental quality and am completing a project on the Ringwood Mines/Landfill superfund site. Do you have any information on the site that would be useful for me that is not listed on the Superfund website? I am looking for information on the history of the site, pictures, and main pollutants of the site.

I hope you are staying healthy during this time.

Thank you for your time!

Abigail Gormley
